Message from the Founder

Our journey started in 2020 and we decided to help people in every way, we empower women so that they can uplift and become AATMNIRBHAR and fight for her. We joined many migrants' women workers to the government schemes and continue doing so that they can avail benefits from the schemes running by government. We strongly encourage women to take care for their health for their baby and intake proper healthy food and nutrition so that we can help in reducing malnutrition among children and promote healthy pregnant women. I am very happy to introduce AATMNIRBHAR NGO which is a nonprofit organization based in Jaipur Rajasthan, India. I welcome you all.

AAATMNIRBHAR NGO with a motive of women empowerment helps of poor children, Women and child health, Education, women rights etc. We fully supported poor families and Children and request you to come forward so that we can make a better society.

PRESIDENT (NGO)

Mission Statement

We are young and team of enthusiastic people doing something for those children and women who are poor and cannot earn themselves. They have to be self-sufficient and Poverty should be removed from the country as much as possible. Thanks to our project experience and passionate commitment.

We ensure that donation and volunteer work support the targeted people in Jaipur as effective as possible.

Vision

We help the poor step by step in building an autonomous and more secure future. Our aim is to address the health of women and children, women empowerment, road safety, human rights, women's rights, environment, water, cleanliness and work on hunger and poverty.

Who we are and Where we operate

AATMNIRBHAR NGO was established in 2020 as a not for profit organization. We used to see such people who were poor and women who were unbearable who could do anything but they did not have proper direction and any motive. Then we decided that we will make them self-sufficient and work on all those who have big issues in the country so that we can contribute in every field. Along with making women self-reliant, we started working on their care and children's health. We have added a personal experience to any issue we have added. Today, in the country, every kind of poverty, harassment, violence is being done, no one gets so much attention on that side, through this people, through it, and we took an initiative: through which we have thought to end all these issues and we are sure that we will definitely succeed in it. Today women are not less than anyone in any field, so there is a need to make them aware of the hidden talent in them, for which we will work under Women Empowerment. Let's talk about the elderly who are homeless, who have no one to take care of, our aim is to give them a shelter and take care of them. Even today small children are married in the village, which has not stopped the practice yet. It is also our aim to reach out to their families. It is also our aim that by reaching out to their families and tell them, what is the effect of marrying members at an early age, on children and their lives? We are playing our important role in the field of environment also, whether it is related to any other area, cleanliness of water, proper utilization of water, and maintenance of water. and very important women rights. Today most women do not know about their rights. We tell them about their rights and make them aware that you are not less than anyone. We also work on gender equality.

Impact of Covid-19 on Malnutrition

- Covid-19 is pushing millions into poverty, reducing incomes of many more and disproportionately affecting the economically disadvantaged, who are also most vulnerable to malnutrition and food insecurities.
- Lockdowns disrupted essential services as supplementary feeding under Anganwadi centres, mid-day meals, immunisation, and micro-nutrient supplementation which exacerbated malnutrition.

NGO celebrated POSHAN MAAH with Maternal Women and Malnutrition Children. For this we researched the nearby slum area and prepared data of Women who were Pregnant and Malnourished Children and provided them Healthy food

AREA	MATERNAL WOMEN	MALNOURISHED CHILDREN	DIET FOR BOTH
Vidhyadhar Nagar	10	4	DALIYA,KHICHDI,MURMURE CHANE,GUD,PULSES,PEANUT
